Membership Application

General Information

The Harris Hill Soaring Corporation is a non-profit organization dedicated to the advancement of motorless flight through flight training for its members, various educational programs, and competition. Flight operations are run by a rotating schedule of members on weekends and a paid weekly crew during the flying season.

A primary requirement of membership is to work at least one or two shifts (each being four hours long) per month at a level according to your abilities. Additional expectations are your participation in other facets of the Club such as: holding office, serving on a committee, assisting with contests, or helping with social programs and other events.

Any member of the Club may terminate their membership at any time by first paying all outstanding debts to the Club and also notifying the HHSC Board of Directors in writing of your wish to terminate your membership.
